

HAM RADIO CLASS

Get your amateur radio license in only three days!

March 26—28, 2010

Sponsored by the St. Croix Valley Radio Amateurs Club
The one weekend class is held in Roberts, Wisconsin

Registration Information:
<http://www.scvhamradio.com>
or e-mail n9upc@yahoo.com

- A “Technician” license is the first level of license
- No Morse code is required!
- Short multiple choice test taken at the end of the class
- Ham radio explained by experienced operators
- Learn about a great hobby through in-class exploration
- Be prepared for emergencies when communications are down
- Free 2010 St. Croix Valley Radio Club Membership! (\$24 value)

This focused course has a small \$30 pre-registration fee to cover food and photocopying of materials. You will also need to purchase a \$25 study manual that includes great information about the hobby, the FCC rules and the actual questions that will be on the 35 question test. The FCC/ARRL testing will be on-site on Sunday, testing fee of \$15 will be collected at the time of testing.
